OF THEIR PROFESSIONS AND INDUSTRIES

Gracious Home Design With Exceptional Service

DIANE DUROCHER INTERIORS is an award-winning, full-service interior design firm that specializes in creating timeless interiors that encompass a wide spectrum of design aesthetics. Diane, the principal designer, founded her firm, Diane Durocher Interiors, in 1995. Her guiding philosophy is one that is refreshing, heartfelt and mindful. Diane believes that home is where our lives happen and where memories are made, and she considers it a privilege to design for each client with this in mind while treating each project with the respect and care it deserves.

Diane has always been drawn to design. Growing up, she spent weekends browsing furniture showrooms and preferred House Beautiful and Metropolitan Home to the typical teen magazines. Diane soon came to realize that one's surroundings exist not only as a lovely backdrop, but can positively influence how our lives are lived and enjoyed.

Diane is known for her keen eye for color, outstanding space planning skills, and her ability to design custom pieces that uniquely fit her clients' needs. Prior to establishing her firm, Diane worked ten years with a general contractor. This experience taught her the importance of teamwork, scheduling, and deadlines. Today, her firm frequently works in conjunction with major New Jersey builders.

From traditional to eclectic, Diane's firm provides design solutions that garner high praise from her clients not only because of her creative abilities, but also for the utmost reverence she shows for the needs, desires and constraints of each client and their family.
